

Department of Radiodiagnosis

S NO	NAME OF THE INVESTIGATOR	TITLE
1	Dr. Tadiboyina Kavya	Comparative study of plain radiograph and MRI in evaluation of painful Hip joint
2	Dr. Avvaru Chandana	Study of role of MRI evaluation of cruciate ligament and meniscal injuries in traumatic knee joint with arthroscopic correlation
3	Dr. L.Tejasvee	Role of color Doppler USG in evaluation of deep vein thrombosis of the lower limbs
4	Dr. Vineesha A	Ultrasonographic & Doppler evaluation of pelvic masses with histopathological correlation
5	Dr. H.Swathi	Role of ultrasound and color Doppler in Evaluation of medical renal disease in diabetic patients and correlations with biochemical parameters
6	Dr. Anusha Reddy Manda	Comparison of ultrasound elastography sonography & mammography in evaluation of solid breast lesions
7	Dr. Rangaraju Rohith	Sonological evaluation of scrotal pathologies by high frequency ultrasound & color doppler examination
8	Dr. Khaji Sana Farheen	Evaluation of pelvic masses in females with ultrasonography & MRI along with hpe correlation
9	Dr. Mettu Sindhura	Comparison of ultrasound and MRI in evaluation of rotator cuff injuries
10	Dr. Manogna Vittam	Role of magnetic resonance imaging in pre operative assessment of anorectal fistula and surgical correlation
